A SIMPLE EXPLANATION OF THE DARK PING PONG TOURNAMENT

The Dark Ping Ping Tournament started 300 years into the future world. Let us push the time by 300 years~

In that time, a few people hold power and others hold an even stronger power...

So they gathered and decided to do something fun~

That is to organize a special ping pong tournament!
(the organizers like ping pong)
And so the world-renowned Dark Ping Pong Tournament was created

To attract people to join,
they prepared some interesting prizes:
1st place: 1 wish plus the 2nd and 3rd place prizes
2nd place: able to time travel twice
plus 3rd place prize
3rd place: able to change the time portal,
allowing time to stop 1 year

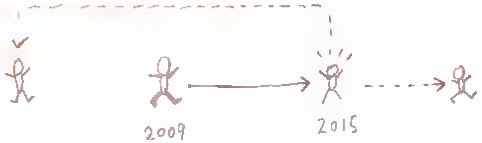
Time Travel

Those who received the time travel prize have the ability to time travel, the distance, however, is restricted



For example, if someone is born in 2009 and received the ability to time travel in 2015, he/she may go to any time, the future or the past.

However, if he/she travels to 1900 from 2015, and lives from 1900 to 2009, until the time he/she was born, this person can't live through 2009 to 2015 again.

The only way

This is because any one person can only pass through a time once. Redoing a past action is useless, because even if they can return to their present time, there will be a whole new beginning. Things that have already happened can no longer be changed.

END OF CHAPTER 1
